Spiritual Realm of USA 2012 – HES Authority Elimination

- 1) HES assoc are the people who does business with HES for money and execute their evil Command who are spreaded countably all over the world. Exporting unwanted/semi wanted And sometimes the best resources of a land not allowing the own people to enjoy that.
- 2) The HES would be made powerless in any authorities. 3) Israelite would be ignored by all nations until they get settled down in Israel where the Lord says that He will clean their hearts.
- 4) Only the Democratic core and Meadow would make peace with all nations in humbleness And revamp the sofar evil authority based networks and design and live peace and joyful life.

The Opened Path of Straight Forw ardness

1. The Top Judiciary of the People

It is a merciful layer for those who repent and i ntent to lead a good one

Top law keeping position

Top elected official position able

Beyond party line honorable

Nothing is once for all for them.

2. Land Utilization through Governme nt

Machineries for robust operations

2. Uniforms or dressing cost bare for all govern ment employees.

3. All danger to live old buildings and houses co uld be brought down to reduce risk of lives by t

he government cost. Subsidy could be a portion to build a new one.

4. Private lands unable to handle with self-labor, could be agreement leased to the government for cultivation.

4. The run and hidden native German folks utilizing USA as a stand up place to throw nuclear bombs would never find a seat/voice anywhere in these discussions. War criminal charges would follow by the border less judiciary if provoked through any mean. Various diversity journalists would be permitted to flood and to listen to the story from these above 80s hes and their fund only or gene only followers.

Let all the decades long slavery and devil ruling be driven out In Jesus name. Amen

4. The Government and the Renewed Technologies for all their nationals

All the federal or central government should be able to make their own free computer and mobile operating system and an email system for all of their people. This would reduce license cost and dependency on external, slavery of people, changing people in begging mode by shutting down the government, cultural or mankind stability (saying to the world we can have process like this valuable way only as the sexual filthiness is even blind to the 2nd married prophets walking like cat on the wall between evil and good and the key fund based devil reporting of the low level prophets), caught in condemnation trap of the devil (ending all men on women, women on men, living sand, against conscience specific cond

emnations initiated and funded by the devil monopoly.)

This could be a small start with the government budget and the employees could be hired from the monopoly sources.

Operating system is building buttons and text control structures as libraries from the base sample like color definitions, drawings etc. There need to be at least 100 teams to take ownership of each part of the operating system. The operating system should be plug in to accommodate a freely available language or develop one too as a custom.

Republican party top controls are not in USA and they will not be ready to loose the party name and they stick always to the monopoly way which is 99 percent population should always be in the condemnation pool. 0.001 percent native Germans kings and Queens of the hell would

be setting up the crooked, cunning, dangerous, marriage ill treating paths for every process.

Top control of lie based criminal under world dealings to rule the world can never be related to the open Bible. All they have is forced love and sex channels to corrupt the people. A prayer to activate such filthiness even in ignorance will be rebuked by the people.

I rebuke all these hell activities in Jesus name.

Amen

Global Live stream monitoring of criminals
File closing and opening, even the bed movement through small plane escape could lead to encounter.

To avoid further repetition, complete this before any bulk migration movements

Fund cut of such service through legislation

Collapsing big bank fake money removal. **Some** one having precious stone cannot generate money, which is illegal against land treasury and regulation

6. As the evil spirit move away so the renewed law could be

1. Might be telling that there is some law on the way contradicting and not allowing the 100 percent population to live. That is not a problem with the judgment but the law accommodated by few. Go through that and Replace that with the renewed one.

Law Category area that could go in::

Fake money

Parallel infinite opposite source flow

People agony kindling single gene ruling

Root of all non-overcoming evil spirit degrade and childish wars

Cross Sexual filthiness against conscience.

Eradication of straight forward business survival.

Faith corruption and standing against Holy

Spirit.

99 percent can never live for their conscience.

Non-humanitarian fakes jobs.

God's own image Turning to face paperwork threat like an animal treatment.

Devil own open house

Only fake based pride

All the nation's legislation approval is required to make the loan system non fake while they have non-loan able source in their own land.

The women who died in money taping supply sex voyages by brokers. Observe a sad silence please as you read.

The men died losing the family sync and unable to go with the ramp up flow, due to criticism on the non-conscience way. Patriot a man with nation funded plans.

2. Police officers are tired of taking the dead bodies. Arrange for a camp or entertainment structure where they meet newborn babies or child

ren with their parents getting entertained in games or shows for them to come and bless the families.

7. The Government and the Patriotism

1. Legislation voting in all affected nations including European nations declaring that it is fake.

2. Legislation voting in all nations including the crucial European nations /While other continent nations are affected with only door/that the deficit based on fake money is invalid.
3. Each Nations Top Court declaration and Constitutional Changes need for all business leaning towards democratic and elimination of monopoly parallel running with parallel generation with no rule in control. Government should not depend on small 12 by 12 size shop level consumables.
4. The Federal or central government would provide emergency assistance for business, which by ignorance swim in that path with private to Government aid, government aid to pure government organizations.
5. The Federal or central government would provide emergency assistance for People leaders to declare and surrender the properties/belongings in front of the Judiciary.

11. There would be suspension of lawmakers and the Government officials who manipulated the humanity for the sake of under sourced money.
12. Jobs would be created for every nationals of what he/she can or cannot through physical, mental and spiritual and the ability would be balanced and not

discriminated in the scale of pay.
Especially women would get work/purity/regulatory monitoring and checklist handling jobs for the process all over the world with Billions of process steps.

13. As per people request through petition and other sources like external leaders on people to people welfare, an elected official especially a top official default term could be extended to put the name in ballot through amendments/without amendments.
14. Any vulnerability supporting the fake money would be considered as a criminal offence against people. Subject to containment process.
15. All who have been crushed would be lifted.

Democracy in Open Top Security Disclosure Freedom

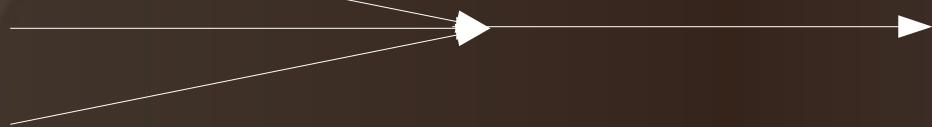

Before Transformation

- 1) Few (World war Nazi Germans and allies) to Many
- 2) Devil Ruling/ Extreme source of Discriminated Crimes
- 3) Central Intelligence, HES (Being Many)
- 4) Evolved non-democratic party to handle only the non-disclosure diverted global central finance as trust funds
- 5) Many have been forced to do dis-respectful and de-valuable activities threatening With their detoured path into revelations
- 6) German women have discriminated every non-German women all over the world over centuries.

After Transformation

- 1) Many to Few, Non-devil Serving, Many nations receive actual independence
- 2) National Backed, HES overlap eliminated Central as XBI and independent HES absorbed as XBI in Front
- 3) National with Diversities worldwide becoming helper cum monitor of XBI
- 4) Central fund disclosed and distributed in consent among many + The Rest apart From Many
- 5) Democratic Govern in humbleness and without discrimination for every human Being to have their own share of living
- 6) Forced detoured paths are being forgiven for many and few possesed are being isolated from people until recovery.
- 7) Democratic living share Initiated by Non-german, Non german-agency-connected diversified majority of women in policy making and keeping would stabilize the trustful living converting evil to good through Group submits, Conferences, Banks, Non-Profit Organizations, Trusts, Exhibitions and Legislation which would be the Finance and Motivational portfolio.

The Time has changed

Nations Conflict Resolution:

Non-Participation of Native Germans would rest Ukraine and Russia and allow the Europe nations to grow individually without yielding the full power to the Non-elected Native German Leading which has been for century in-directly and resulted in EU side squeeze storages concerned for their own small circle of living and UN (Non-Democratic) gold mobilization in order to benefit them alone with special block on every nations growth strategy concealed and provided assistance for slave and sin mode begging alone.

We are not conflict driven towards slavery but harmony driven towards prosperity of every human being. Those Native Germans who change their paths in humbleness towards understanding and taking pain to resolve on today's flow of God's Spirit would be saved and for others it had been a global impact and every one realize that at the same time which could result in unwanted situations in order to protect their own individuality, family, congregation & Nation peaceful living.

Nations Borrow Resolution:

All Nations Policies, Strategies, Spiritual Leaderships focus towards this and have a blessed Living. There is no need for a nation to borrow from other but they just need to work in harmony for the Legislation outcomes. Invest money for harmony keepers and evil chasers in your own nation and the slavery of people reporting to the evil, people condemning advisory committee (E.g. With one word China they condemn the full nation in 2 seconds, after whatever performance they ask and you do would be a waste of your own peaceful life - Such a pain taking people in the leaderships and to show the world what the wrong thing they have done is right, they initiate criminal wars as they have a strong base and expertise only in that not having people concern but only their living concern) would be dismantled. Sin reaps only criminal offense and source evil spirit stimulate that whereas moral living brings forth understanding, trust and peace.

I pray for every one and especially these Native Germans that they understand it right in the near future for their own benefit of their soul. The threads you have pulled would be released. Amen

Nations Trade Exposure Rules:

Making Global Trade Rules/Policies in Democratic way benefiting every nation's in and out as there is going to be long sight and wider view, Non-Bondaged Government based opportunities, job creation and workers trusted moral-based living, Non-Participation of Non-Matured and Evil Triggers on the top consideration.

Keeping it Government based reduce this bias flow wanting more finance at the same time monitoring body once in a while on the truth path would keep the confidence of the people. That is flexibility of the elected system has over monopoly interest based loan system where even free donations take priority in corrupting or pulling the governmental public legislation funded system to get diminished and getting into the monopoly style of ruling where people consciousness does not take in to effect like the elected system and people getting in to bondage

slaves according to their understanding and growth and that in turn corrupt the monopoly in moral ways with already accumulated, not-cleared sins and resulting in devil occupation system ruling the world.

- Governmental Bulk needs
- For Individual need the raw resource lack area /skill lack area, nation wise
- Service capable establishments
- Spare parts supply
- These are special need rules for a specific period while protecting domestic development/survival rules
- Requirement, Based on Budget components for a specific year and its agreement finalization

Nations Internet Resolution:

All the domain registration servers under the native Herman monopoly ownership would be taken over by the federal government through legislation those who are properly working in order to get relieved from monopoly threat and terror of collapsing Internet and millions of Internet based business owners around the world.

d the world.

Nations withdrawal pattern from Evil Process:

- HES and CIA has done bulk criminal offence across nationals with Native German sex cross spectrum experiments they have done over the century has resulted in genocide.*
- The Pron domain names are not only initiated by the devil but also funded from the burgled money and IP concealed. The Contents are the HES top-notch devil command achievers profiles destined. The Credit Card debt accumulators are not only becoming slaves for free money desires without noticing that it is a burgled money and also extensive high price isolation of sex domain contents, further isolates CIAs from the women realm, family realm and makes their life in vain ready to die any time for the command of the devil. If they are trying to come out, the devil make all their history triggered and making them commit suicide. We should be able to eliminate the source of evil process, people behind while making suicide prevention for the Inducted. It is a curse of*

producing even your family or family functional photos to these spirits through any process.

- How to get out of the Devil Bond - Practice weekly on the progress of the following

- Clean up the domains and keep the rest under federal control with set of rules and regulations. These are just flat files with duplicate identification techniques. The business and every company and every individual online are at high risk under the monopoly whims and fancy admits
- The Un-compromise delay in Legislation funded people administration and nation building or Other nations public fund looting by storing in secret destinations or Interest based loan torture for Public survival of a nation would result in Judiciary decision of existence of such party deceiving the people.
- True and Truth filled affordable healthcare for every citizen.
- The burden of deficit would not lie on all people, but with those who have mis-handled the people with wrong funding just because of their discrimination, condemnation, war-criminal, sex-criminal self oriented life projected in the

public realm and refuse to do the common budget for all people.

- These are billions of deaths happened over the century across nations not knowing why it is happening and also these are spiritual unclean fix which can not be mended like a third dimension design fix but need to undergo Spiritual process. Many times it is good to approach the Non-believer, Non-devil bonded people and see where we stand as their life reflects where we need to be and gives proper doctoral medicine when needed. And some even try to advice in their own way for good, which need to be taken in the positive way. Devil looking for hat redness base would be ashamed from your unity and would realize that the time change has come from people depending on money to people depending on consciousness. So the target would be zero percent flow of evil spirit in to any process, place or people. The Possessed would be handled separately with full monitoring

Nations People settlement choreography:

Majority of government coordinated self-dependent living environment or the old term of jobs.

Family privacy protections

Spread the HE'S suffered group and protect them.

All the government employees, contractors sign agreement to chase away the evil (while Holy spirit does better things along with people consciousness, evil spirit does things always below the people consciousness standards which would never be considered as non-understanding) and not bias with diversities of the land nature

Where there is a lagging or suffering there is opportunity, business, and survival of people

Burgled cheated money operated as donations to have sex target with the women community of the world with criminal activity against family bonds and interest based gold derived money sucking the blood off the people as loans to destroy a straight forwarder,

such native German possessed folks operated party existence is subject to judiciary decision as it is oppose to the legislation funding and the world war 2 run and hidden native Germany minority found the above ways and blocked the prosperity of the people In every nation but made slavery of people as they could never get the majority in legislation even in Germany. This is the primary evil force need to be addressed before settling down the people throughout the world.

- HealthCare - USA

When ObamaCare has been able to meet the medical need of the worst sufferer, It would be able to meet the need of the best enjoyer too who is getting delivered after realization of their own slavery push for decades through Non-Legislation / Devil sin targeted micro controlled funding. i.e. the rest of the US population. Non-Democratic new eruptions are not people freedom beneficial but the same old alienating all, except the Native German Men and Women. Also the ObamaCare would take you away from Treatment Decision Torture, Insurance Bulk Pay Torture, Periodic life commitment torture but keep you stay with governmental common benefit at reasonable price and make way for hardcore disease treatment research and benefit without discrimination. It would never be the high price evil and sin isolated maintainers far from people realm but would be among the people, cleared with committed sins if any and finding the true meaning of life along with physical benefits. The devil would never find this simple way. Amen

The United purpose has already been destroyed by a huge repository of Swiss.

The Top Protections of the Land Value

Nations elected official and Supreme Court judges have any time anywhere access to any secret even in operation theaters if anything still going on as part of the devil schemes. That is the land does not conceal anything for the benefit of the people. They can utilize that whenever they need. The organization refuse to reveal would be committing a crime. This is to avoid the individual and national threats from evil sources.

Obama Trade Legislation Funded Bank

- 30 percent rise on government sector jobs locally with a 6 months sketch out budget plan with federal and state specific approved non-discriminated for any diversity 2016 treasury projections.
- Government to government agreement.

This is not like private profit making

Government 1 being receiver of product or service and government 2 being the producer of product or service between nations.

All the producer labor would be met by gov2

All the material would be met by the government1

All the gov1 premises cost would be met by gov1

The patent right would keep the business long term

The gov1 and gov2 agreement is made due to lack of skills and production capability alone.

This would improve the economy of both sides and minimize the liquid fund flow.

For largest consumption nations mentoring of skill and capability could be made upon purchase or engagement of certain percentage is completed successfully. And with the gov2 legislation approval.

This technique is a non roi unlike private roi do. Zero profit but investments for nations to get developed.

Private Entities Flow

People suffering big area/Most saving for to accomplish could be a formation of Government Organization.

Within Nation - Government Treasury and Government Banks in domination.

Private Big Banks Interest given and taken need to be controlled (As the interest giving is reduced the interest taken is reduced) and should not be projecting to the entire nation population

Which is an unwanted source of
Personal debt,
Evil generation,
Lose of land and Gold,
People slavery,
Executives Planned Corruption,
International burgled money-Native Germ men/Human
killer nation gold loan interest-Native Germ women; wrong
motives successfully implemented,
Genocide making business debts,
People loving controllable life is being destroyed.

Blood Suckers

One person representing Greece is weak for the people expectations. Already there are power by pass in EU, EC and EP and the people of Greece can never dictate terms for their benefit. Devil is interested in people slavery in priority than delivering them. Your European friendship with leaders and people always remain. But get out of the blood sucking and this is a good time by dealing the people stability first and the debt later. The Freedom of independence of your choice is a torque towards growth and the reduced money value of new currency is good for your long-term internal growth. It is a matter of few months challenge initially for few months instead of continued people being cheated. The sucking level has increased over the century and decades and the source of all evil crimes could be specified in one populated area. Sell off and finish the debt with later talk and do not get it continued and allow the people to suffer more and more, people evacuations leaving their land for the huge debt, Family breaking for sex

torture for poverty, Drone Target killings for those who raise questions on deviation from Righteousness.

There could be all nations debt talk together to face the bloodsuckers - (Native Germans and their affiliates from Germany, Britain, Netherland, smallest part of USA, Australia, Argentina, Mexico, Canada, France...)

as there are secretive independent torture starts for various nation and settle that so that the governments of each nation decisions could flow freely and the people getting delivered of bondage, sex harassment, condemnation,

Torture, inability of growth, Speed to enter into degrade box. There could be legislation law to face this crime and handle these bloodsuckers and to get rid of their operations.

Judiciary in each affected nations could start list the people in prime involvement and begin an investigation on their wealth spread. There could be cross handling like Argentina judiciary could open file for Netherland victims with both government permissions. Any threat passing from these primes to the Legislators would be a crime against people.

Everyone in this world is free to live. There are very good Government solutions for all issues anywhere for further decades, centuries, your children and your Grand children in a Democratic way. Keep the devil out of your way.

. I can have a coffee but I cannot allow the evil spirit to flow below with cross-functional initiations. Amen

The Nature of Obamacare

Non-Discriminative, Simply Truthful, Trustful Nation's Legislation only funded, Patient well-being

purpose driven, Non-Human Rights Violating, Non-Evil Non-Reserved treating, Open and Visible, Non-Medical-Slavered, Affordable HealthCare Americans have been longing for

Nuclear Deal

Pain Taking, Respectful, Reward-able, People welfare conscious Approach - Between Nuclear Handlers - With Constructive direction forward - Mutual People Beneficial Scenario - Mutual Trust establishments instead of threats from both sides. Possessed Native German Network folks will not stand for anything; they do not sleep unless they destroy any good deal and also dodging the deal reveals that their hidden nuclear treasures would need immediate world attention towards security of the people of the world. So leaving them others should be able to choose the peace deal forward for their own and Nations benefit. This is a getting invented penetrating pathway towards peace on high power material handling for the safety of everyone.

I bless the efforts moving forward and the process of inspection. Amen

These thief network devil Germans have hurt their own gene Germans and their families with divorces and same sex in primary.

The Non-Evil ways in High-Energy, Technology and Contamination-Path

Nations High Energy Misuse Deal

- The deal is the outcome of the love for the humanity from both Non-Evil People sides
- Using high energy for the people living beneficial would be a people excellence and it is a common long reliable pathway
- Keeping aside the evil extreme root source through process and strong non-possessed/Inducted people together would be a wise path for the nations people security and Trust.
- While so much of Bombs are being discovered in Germany and nuclear weapon manufacturing in German migrant places, it is the responsibility of both sides to open its sealed contents any where for Investigation and item checklist during the agreement understanding and Trustful movements period.
- The agreement would be complaint to Discrimination, Condemnation operation, Terror fixing of group of Muslim/Islam humanity and bullying
- The devil played old neighbor games would fire

back to the devil if triggered as 21st century reached much understanding on the higher-level evil spirit.

The People Government and the Technology Association

- People Government and their Technology for flourished Living. Spiritually immature single elected-person-targeting monopoly operations, revealing the inability to understand where the devil is and overthrown by the devil higher level pressure doing a reverse Christ Ministry hailing that the devil is good, should be overridden by the Governmental structural diversity inclusive operations. Also the technology which spreads to majority of the nation people, should be the Non-Monopoly people elected government operations. When Monopoly is identified for making evil investments/triggers/motivations/Family Corruptions/Sex Manipulations/Devil Terrorism/Secret bond slavery and Torture/Bulk Torture/Torture for given money, the existence of such monopoly would be the Judiciary decision to seal its complete operations immediately. The devil has occupied the higher level is to turn and tune the

good in to bad and bad possessed spirit to be praised. If you are an immature prophet target the issues with the Spirit of the Lord, do not target the elected person in words, which is an image manipulation criminal activity and also the name of the name of the Lord among the so far believers and Non-Believers are put in vain just because of immature on top who are just getting into the 0.001% depth of problems through recent external activities by the matured.

The Devil being People Contaminating Source

Porn funding and enjoyment and bible purity cannot coexist and cannot serve two masters. And the coated devil cannot use these as a weapon to protect their evil instead it would get exposed more to get eliminated.

Information, intelligence, data access pass ban for native Germans in their living continents by affected nations legislation while the people of the world settling down peacefully. Also this would deliver the people who have already been trapped from the fear of the devil revenge through chain bit and bulk activity across nation borders. All the devil ways are irregular and conscious deviated which is a living threat to

the people living system and it would be the mandatory ban factor for the people elected legislation. This would be the first form of resulted isolation making an end to the major part of concealed prostitution, people condemnation, and contaminated spirit tortures. Making way to the integrated economic prosperity with truth and trust. This evil activity also being a network activity across nations violates the local citizenship rights and would tend to citizenship revoke status. 1950 run and hide, 1980 sail and hide resulting in 2015 suicide homicide need not be and there is a way to surrender, repent, washed and being a part of the community within the isolated layer until a confidence arrive to the people of the world. It is the Investigators right to check the torture level of the parent less nursing

Professionals engaged with the native Herman and take them to needed action. The generational rape folks by default generate an impulse of war, as they want to feel secured of also raping so far along with breast book keeping German woman.

This impulse would never be entertained any more by the world and the new born too. The consequence pressure would extinguish this impulse with policy, standards and procedure without innocent people going for war and people being aff

ected. All immoral deviations would be subject to punishment. This would be the phase1 rollout plan for devil Kingdom eradication plan.

II) The Incapable Degraded Box

1. The degraded possessed box can never collect the truth from the conscious people
2. The truth is always there with the conscious people, and they stand and live on that.
3. If the conscious people throw a lie, they throw it to the dump place with land specific together ness, mentioning to the world that they do not s

upport their operation or activity.

4. When the degraded box not able to differentiate between truths and lie (intelligence might be testing phrase travelling cover area) in overcoming spirit, it is an indication that their organizing things are not fit to lead the people.

5. If the box were dumping itself in one area with one view for longer time, the box would receive only the left over, that too with conditions.

6. The campaign of this box with the slogan I have given you money and you should do this evil. Has started failing throughout the world.

III) The Top most Threat of the World to the World

Earth bank and nations leaders torture, govern

ments torture, private individual torture crime in judiciary file open, native Herman women base network, native Herman men in gene invented afternoon sex engagements with primary gene associate sex even if it is temporary as they have given enormous money from their hands every day as debts and the people are ready to do anything in return of interest alone, what a pity people of the world you know, these behind the seen activist list would be prepared to face the people of the world and the leaders of the world. The mechanism of meeting could be decided later as this is a major block for development of almost on all nations Including USA and many past individual borrowers. This would also avoid many of them going astray and not able to find a solution of their own.

Due to the above fact the native German base in various nations including USA are becoming the first and foremost/most critical/one and only /top most financial extremism terror threat to the people of the world. As this is a possessed evil network also

Leaving this without first priority handling would suffer the leaders and their people in other crooked criminal ways without understanding the root cause of anything.

The good news is that the people of the world understood the roll and hit game going on for centuries crossing all continents and the made up history in each nation and the innocent people death so far from many families and congregations as devil way.

All others are low operational suffered victims.

VI) Peace of Mind Hospitals

Federal budget, federal affordable hospitals in every town, no devil communication business here. With all latest invented technologies in place from startup and federal contractors. Obama care in place and next year other insurance act signed only when the non devil activities are accepted as conditions so that people can leverage the fed

eral hospitals with trust. Like va government funded, government funded community, city, town, hospitals with only government-to-government relationship. The private player fund flow would be financially audited for legality of land and the torture on medical professionals would a crime investigative action plan.

Americans peace of mind hospitals.

The financially suffering hospitals just because of not doing any evil activity could be taken over by the federal with premises, resources and equipment's with operational cost detailed in report of request for acquire through hospital union leads. After federal inspection, they may propose to revamp part of assets with federal own assets.

Federal could have a cap of limit for such take over among companies, institutions.... to plan for

every year budget.

VII) The soft data Handling

Software Web services methods easily expose government data out side which should be limited and restricted to the evil condemnation monopoly access.

VIII) Nations Building and People Flourishing Movements

Court can send notice to surrender the monopoly info as this is a source for so much of evil with

anti government operations, own whims and fancy operations. Material contains unlimited women torturing information and data gathering by torturing women and crooked communications with women without their husbands notice threatening, admitting info of so many illegal self styled drone attacks. These are dangerous than the reactive material and poisonous to the society

Raping and slaughtering of unlimited Indian women who went far from home sticking to the value of land intelligence. Stating that no one sticks and the gang partner saying to another partner keeping Indian women in the back, "not in the morning guys".

X) World Leaders Conference Items

G20 could propose an international investigation on the root source manipulator including German non-Muslim weapons and explosives carrier and the weapon smuggling authorizing authority identifying the weapons manufacturing place. Football 20 France germ is a part and climate conference is a part. Without identifying the manipulator behind the low level hate flow merge d o not take any force action on any one. It should be a resolution on only few individuals after investigation. Refugees or citizens might have been used by their limited survival mechanism by the source crime. French nationals are already aware of the pat and pick game the native Germans play from their early century refuged nations

.

Also talk about debt threat, which is the primary root driving force of many such bonded surprise tragedy targets. Isolating the threatening people and their borderless judiciary hearings agreements on their provoking national torture based in humanity. This would be the phase 1 talk. Borderless movements could be followed by the single or double century migrant status rollback for easy clearing movements across the globe.

XI) The Global Governments in Internet Authority Regulations and Affordability (Next 5 years Software Investments towards Governments Self Establishments)

All the American government replication data storage servers anywhere even with other nation government should be under the federal agreement for American privacy alone when the federal takes over the Internet from monopoly. Other private company citrix or cloud servers where applications are shared mounted need not come under the us people government agreement. But government citrix or cloud servers both physical and virtual servers should be in USA.

XII) The Basic devil problem on humanity and its Remedy

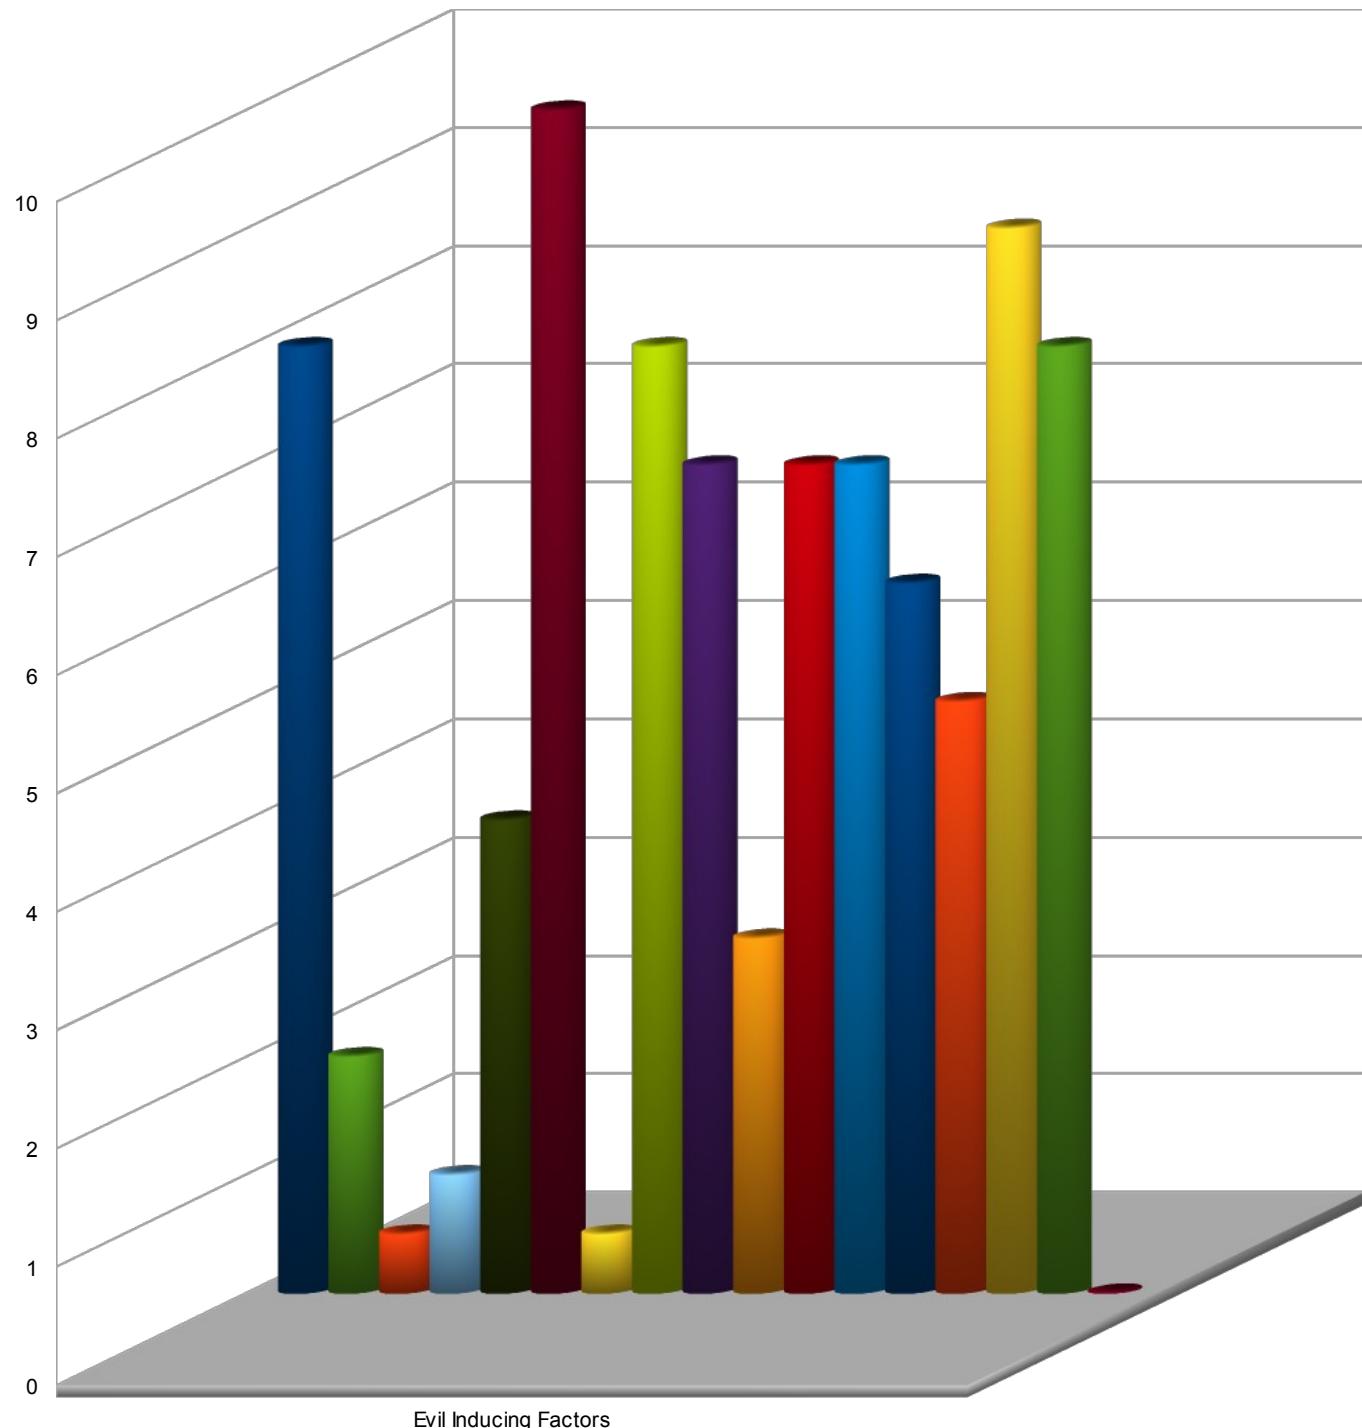

Devil strategy: Touch base on the older sin from database whenever required to control of any one through many slave geographical source and d

esign the future destruction activity. There are many forced job activities threatening the survival from geographical over different time pave way for a stable execution of devil plans for the people. Equipping people to commit suicide.

Devil faith: Worshiping hate, creating hell on earth environmental strategies, far down the pit secret, people should live only with money begging policies, confirmed fear of deportation from earth, thief sexual relationships is the sweetness cement of the Kingdom building part, package of all the above should be the business and people should swim there to get rewards and always depend on personalized money depending on their level of growth, etc.

Remedy: Spiritual leaders all over the world giving forgiveness for those who repent are being condemned and discriminated by these records keeping by monopoly style action which is a "Not allowing people to live and torturing the congregational leaderships crime".

Jesus through Holy Spirit forgives your sins and sets you free to live with all abundance. Amen

The Governmental Security Stability and Economic Dynamism Portfolio

1. Primary Education for Survival Need

Primary education and leading developments survival awareness for the left out but grownup/elders in their time through social governmental mentors.

2. The Economic Dynamism Portfolio

- 1. Humbleness and consideration of poor in survival*
- 2. People relief from debt pain as a government*
- 3. Building New York like towers in every nations big cities to satisfy physical rising mindsets that take care the people admin through government. This would cover all the physical and me*

ntal developments of the entire land.

4. Devil isolation would be the defense strategy from every nation on earth with coordination from other departments

5. People would murmur but do not clap hands for old foolish drags and not settling it down with forgiveness but letting the divisions to flush their own evil spirit content and getting negative astonishment from people.

6. The money of devil so far has killed many righteous people who have crossed above the devil degraded box limit levels all over the world. The reverse activity would flourish the righteousness on earth.

7. All major budget planning should have all diversity, spiritually low high, men and women, third and fourth dimension movers, skill experts and researchers. Or change the hats with less people.

8. Allow people relocation within nation. But in

the descending order bulk or typical people smuggling, people exporting, people brain drain on selfish condemnation motives would be tending to crime against the nation serenity of living and crime towards the foreign door involvement.

9. Devil holds gun out-of fear of all past, present evil programs and process initiation as a sample of many steps and cross sex strategies (prior). The non-evil holds gun out-of frustration of getting executed by these programs so that they want to eliminate evil source (later).

The prior want to get protected from consequences and sometimes their outward higher-level deceit escapes them even though there is a rotting inside. The later want to get protected from the evil atmosphere not through spirit but physical gun. The devil does not approach in physical form directly but only your own nations diversity brother out of induction would approach in physical who would end up the target of the l

ater and the devil rejoices more and more and have lived for long in such strategies, as the latter never identified the source. Prior need physical, mental and spiritual security not to approach the people and vice versa. The latter need spiritual guidance and power to overcome the past and face the evil possessed until the Lord comes back.

10. Money was bridging higher evil with low straight forward and pulled, which is ending.

3. Government and Governments Unity

1. TPP would build government-to-government money transaction software gateways with cards and logos, which would replace the monopoly credit card debt piling illegal money, generated slavery purpose system.

2. Government Jobs would be created considerin

g clean water, air, energy, body, soul, spirit, transport, tourism and stay, all ministries, local and tpp business for reaching every individual on the land.

3. Stock trading, vehicle recalls repair trading are the concealed ways of illegal generated fund flow to the devil agents. Also stock trading increase interest, debt, loan only survival, blood sucking non-evil business, illegal fund into government and shutting down the government.

4. There could be special government programs to eliminate the monopoly authority and evil penetration in to the state departments. Using private utilities for this approach could be legalized.

5. The immovable reps not looking at people issues but

Looking at wine pouring inducted women for everything including illegal monopoly money and word fed towards legislative decisions by conde

mned and slavery women sexualities pointed by inducted women are not in the right track to lead the people and the government. The women devil native German network source is the source of perverting anything on earth for the sake of their position.

6. The non-working formula

2 gram gold gives out 2 billion dollar loan
At least 100 people affected criminal event asking for forgiveness without getting into treatment and repentance.

2 gram ... It would be the border less legislation to stop the fund flow from such bank while the border less judiciary heeds the people suffering, sucking nations, criminal spiral spirit developments etc..

7. There is peace and prosperity in every area on earth. Amen

4. The Exodus of the 21st Century out of devil bondage

Spiritual Layers of the World- Devil generated and its Reciprocal good one to eliminate the evil

1. *Whatever security provided for you, Israel and keep it yours and you do not need to provide security for anyone else in the world. There is ignorance in the Holy Spirit flow and Loop Holes under the devil pressure. Minimize the Military directions from Jewish-German Cross with the Native German Source*
2. *The Republican Jews are under slavery to indirectly fund IS through technologies as their Muslim relationship is well in US and the devil networked nations.*

But the Arab living bonded Muslims as they have not shown much faithfulness to the devil Native Germans, the strength of US friendship and execution force out of land document torture is turning against in to their own people of faith and touch based unclear targets. Boston Artificial Intelligence is a typical dealer sample. Music would not heal, but asking forgiveness might do.

3. So the target of any one should not be to the end of the line but the starting source. The Democratic Jews would be good in family building programs and there is a chance and choice for the Republican Jews with repentance at this time leaving the 2G Gold authorities.

Budget Morality

Budget fund could go through maximum on labor and minimum on non-avoidable material or social security.

Budget end of the line could go minimum on rotation and maximum on national fixed asset building or people development.

Debt repayment need not be from before labor budget fluid money or after asset built bond pourin g nationals labor. Rather make a government no noccupied land for international auction and choose for whom it would be best useful and your close allies and convert them as gold and repay the debt. This would not disturb the people effort, built asset, budget operations. As you build the assets the foreign exchange changes every year, compare with gold and make an agreement in such a way that whichever whether gold or cash would benefit the better way.

Free or nominal fee distribution of built or non-built - assets or service to the nationals according to production or availability would be the government decision when it is basic people living and emergency need.

The wider the legislation funding is less concentrated on resource utilization and addressing people concern. Non elected and already wrong driven point of contact taking would be a dismay for the national at whatever commitment level.

The Path of Prosperity for Humanity

1) Decision-making birth is based upon unclean relationship broken in due course. Few months only loving engagements.

Reasons behind.

1. Women intelligence wants to find out the sofar income of big brothers of native Germans/hes and their affiliates. Tragic Sacrifice of women towards truth establishment.
2. While military men take the field hes taking their spouses narrating a secret bond. Women left with not able to find a way to tell.
3. Hes biting dogs finding a lavish way to spend smugled money and have temp sex with widowed women who out of weak strength to proceed for a job looking to fill the stomach of their children. Women did not find the truthful nonevil source of money and living sofa. But now they find it.
4. Women converted themselves as men in mind and having multiple cia secret only cross sex links due to t

he process steps and unable to get fixed with the husband even in outside barbecues. Women say process took me there and God understands that they did not have intention. Process reshaping and family bond building is happening in Jesus name. Amen

This takes months with rigor push and pull treatment.

5. Military field returning his brothers with the help of grandmothers pick having swim sex with condemned and discriminated women as if these women are bound to serve in body for these evil Kingdom keeping patriotic monopoly bodies. Women forced in sex slavery just for the sake of non-citizenship.

These would be empowered to chase the devil.

6. Religion based after office hours his budgeted male ness checking jobs. Whether known to husband or not but inducted priest awareness and routing, Jesus coated ministers at cia link domain jobs made the name of the Lord in vain. The destroyed hope of faith in women. Husbands men in ignorables habitual actions not

able to understand why all are coming projecting Jesus name. Unite the Nation to budget the nation. Hes pop ups, cia roaming would be uprooted. Childbirth decision due to point no 6 has geographic limitations.

When there is no hard and fast rule or law to control all the above 6 points, few women wanted to get away with same sex feature (BASICALLY A HES INITIATED DOMAIN) where they found protection and another path of deviation .the change in the prior would impact the later. Children grow in anger after witnessing this entire sex destination, which are deviated from their own base root.
